DIAGER

The company was established in 1953 as a small company in the production of drill bits. The company employed 25 workers by 1960 and produced more than half a million drill bits per year. By 1970 Diager developed into an international company exporting to 50 countries world wide.The fist digitally controlled tool in the production of drill bits was designed by Diager in 1981. It was to the ability in the designing of its own production tools that the company brought together its technology and expertise to always stay ahead in the production of drill bits.

In 1992 DIAGER became the first European manufacturer of masonry drill bits to obtain the ISO 90002 certification. In 2001 the company was than the first of its kind to be rewarded the ISO 14001 a certification based on the respect for the environment.

Our firm has been the local representatives for DIAGER since 2004.We specialise in the sale of a wide range of drill bits for the drilling of re-enforced concrete, ceramic tile, granite flooring, professional metal and masonry drills.
