FITT

FITT® offers a wide range of products able to satisfy all market requirements. Hoses for gardening, building, nautical environments, DIY and special uses: for each application FITT® develops both standard and patented hoses. The Company, to fully meet the needs of its clients, offers a wide range of standard hoses from knitted to braided to monolayer hoses. Further FITT®, constantly committed to the development of innovative products, is able to offer the market exclusive patented hoses as the result of a continuous technological research that confirms the company leadership in the field of PVC flexible hose. NTS®, NTS® Plus Masterpiece, DTS®, Microlights®, Bios®: these are some of the patents that transformed a commodity such as the irrigation hose into a highly technological product, deeply innovating the world of gardening. With Hi-Fitt branded range, FITT® offers the market a wide choice of flexible and spiral hoses for industrial and professional applications. Hoses for swimming pools, for industrial applications and for food liquids passage: these are some of the many applications of Hi-Fitt patented technologies. With Barrierflex CDS® (Chlorine Defense System) and ATD® (Anti Termites Defense) FITT® offers to the world of swimming pools hoses protected by the threat of chlorinated waters and from every kind of insects. Thanks to the Phthalate Free technology, the Company introduces on the market an innovative formulation that replaces phthalates with alternative plasticizers compliant with the most stringent Directives concerning food safety.
